

MATHS6 SPECIALIST A-LEVEL MATHS TUTORIAL ONLINE

A-LEVEL MATHS TUTORIAL

Available to individual students

Available to support schools and colleges

→ INTENT

At **Maths6** the years of experience our tutors have teaching Maths and Further Maths A-level in outstanding Grade 1 institutions puts us in an ideal position to offer the very best support to A-level Maths students. For students who are looking to improve their chances of fulfilling their true potential and are seeking additional input, of the right calibre, **Maths6** weekly tutorial sessions could make all the difference. With our in-depth knowledge of the specification (of each examination board), and the ability to uncover and address the misconceptions that can hold students back, we offer bespoke sessions that support the learning undertaken in school or college to improve chances of success.

→ IMPLEMENTATION

Maths6 works with private individuals OR in collaboration with school and college departments to offer additional tutorial support across the entire cohort.

Maths6 sessions are delivered online using the very latest technological developments. Our live, interactive and engaging tutorial sessions can be scheduled around the school day, with a variety of options available to fit in with study periods. Pathways are available to accelerate learning for students of all abilities regardless of their current attainment or aspirations. Students can opt for individual one-to-one tuition to focus support on their particular needs or, alternatively, they can join a small group of like-minded individuals with similar attainment and aspirations which will enhance the learning experience for each member of the group. If individual students in your institution are seeking the additional support that comes with private tuition, then directing them towards **Maths6** reassures you that they are in safe hands.

→ IMPACT

There is a wealth of evidence suggesting that private tuition can be the key element to complement a school or college course of study and help students develop the skills needed to achieve at the highest level. At **Maths6**, we are aware that private tuition is a powerful instrument that can create inequity in the system and widen the gap between those who can and those who are unable to access such a service. A high proportion of our work is in partnership with school sixth forms and colleges to ensure that those who deserve it most are given opportunities to benefit from the outstanding services provided by **Maths6** at prices that make it accessible to all.

To discuss our private tutoring options further please contact either **John** (john@maths6.co.uk) or **Martin** (Martin@maths6.co.uk).
